Tirrenia Libeccio 200

[Rif.: #007-01]

Beach cleaning machine brought by suitable tractors (90-120 HP) with four-wheel drive, equipped with hydraulic lift. It works for a width of 200 cm. The work capacity indicated by the manufacturer is from 15,000-25000 sqm./h. The working depth varies from 0 to 15 cm.

The machine is equipped with all the hydraulic components (hydraulic pump, pulsating piston) and mechanical components (cemented pins and bushings) as manufactured by the factory. The machine has not worked much, it has not been used for over five years and needs to be massed before using it. The operating system is of the vibrating screen type with a pulsating motor. The waste container discharge is hydraulic. The levers of the control unit are positioned near the driving position of the tractor.
