Lamborghini Tractor 50CV with Beach Cleaner Tuareg EvoPlus

[Rif.: #014]

The tractor is powered by a Mitsubishi 4-cylinder turbocharged engine. This is a liquid cooled, dry air filtered with safety cartridge engine. Mechanical shifting 4 synchromesh gears x 3 speeds. Min. speed 0,89 Km/h Max. speed 30 Km/h. Synchronised reverse shuttle. Electro-hydraulically operated differential lock. Hydrostatic guideway with a huge steering angle. Back lift- Maximum lifting capacity: up to 1200 Kg. A 4-ways Auxiliary hydraulic system. Back P.T.O. Synchronized on 540 - 1000 rounds per minute. Reclining Safety Frame. Seat equipped with seatbelt. Front ballast. The tractor bears a peculiar tire set that improves its performance. We have been the only one people to use the tractor and we have only been using it on the sand. In 2019, the car body and the rims have been totally sandblasted and a special paint, specifically recommended for the seaside environment was used. The lift pump is brand-new. Coupon was properly done and every single device was double checked.

This beach cleaner is part of the new car stock that we used in 2019 either in our beach club or rented out or even simply used as a demo during our promotional events. This one beach cleaner, particularly, was seriously used a very few times, so much so that you can barely tell it is not brand new. A pair of roughing grids (opening 20x20 cm), a pair of finishing grids (opening 10x10 cm), and the drive shaft with a security bolt are included in the price. The beach cleaner model EvoPlus, comes with a 1 year guarantee.

Tech sheet, pictures and video available on the website.
